Stephanie:

This submission (4/15/11) included the validated MEDDs for the 2010 Small Foraging Fish sampling results.

Will forward the Caged Bivalve Survey validated MEDD submission next.

Alice:

Attached are the files comprising the April 2011 submittal of the final 2010 small foraging fish sampling results and revisions (validation) to select results from the 2009/2010 benthic sediment and 2009 fish/decapod tissue sampling results. The files in this submittal include:

- 1) A cover transmittal letter containing a summary of the deliverable and a table listing the reference values that need to be added to EPA's database (PDF and MS Word).
- 2) A zip file containing four zipped MEDD files. Please note that this file has been provided as a "ZZP" file and the file extension should be re-named "zip" to open it (in the event EPA's e-mail system rejects this type of file).
- 3) A valid value crosswalk valid values spreadsheet for the database as requested by CDM.

Thx,  
Bill P.
